

Construction of upgrades and improvements to the Ocean Avenue Stormwater Repairs from Atlantic Avenue to Shore Road in the amount of \$857,360.00 was financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (NJIB) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the NJIB to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by replacing stormwater infrastructure that has reached the end of its useful life for residents and businesses along Ocean Avenue.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.

Construction of upgrades and improvements to the Pacific Avenue Stormwater Pump Station Replacement located along the Patong Creek in the amount of 1,700,000.00 was financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (NJIB) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the NJIB to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by replacing stormwater pumps at an existing pump station that have reached the end of its useful life for residents and businesses west of Rt.9.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
